RE: Lab Samples for the Drum Mine

Attached are the Bid Sheets for laboratory analysis of samples to be taken at the Drum Mine. There are two different types of analysis that will require two different labs in order to accomplish the work and bid sheets have been completed accordingly. I am not aware of any local labs that can accomplish the analysis of the leach and waste materials. The Nevada lab was recommended by a mining company who routinely uses McClelland Laboratories for their lab tests.

The recommended labs for the work are as follows:

For Leach and Waste Materials -
RX 560 82000000022

McClelland Laboratories, Inc.
1016 Greg Street
Sparks, Nevada 89431
(702) 356-1300
fax (702) 356-8917

For Growth Media Analysis -
RX 560 82000000021

USU Analytical Laboratories
Utah State University
Logan, Utah 84322-4830
(435) 750-2217
fax (435) 750-3376

NOTE - I have also included the cost estimate sheets for your reference, but please do not send them out to the vendors with the Bid Sheets.
